
FIRST ANNUAL ALTERNATIVE FINANCE BAR ASSOCIATION CONFERENCE

Cybersecurity, Privacy, and Data Protection

**Presented by:
Daniel Marvin, Partner
Morrison Mahoney LLP**

Session Overview

As data breaches continue to proliferate, cybersecurity has become an essential component of every organization's overall risk management strategy. This session will address the legal and regulatory framework surrounding customer data privacy and data breaches, including the New York State Department of Financial Services Cybersecurity Regulations, which can also serve as a roadmap for cybersecurity best practices for organizations that are not subject to DFS oversight. This session will also cover relevant case law and state breach notification statutes. In addition, this session will address the impact that a data breach could have on an organization, the cyber threats that organizations face, and cyber best practices, such as the implementation written information security programs and cybersecurity policies, incident response plans and cyber insurance.

Learning Objectives

- ❖ Become familiar with different types of cybersecurity threats and the impact those threats could have on an organization.
- ❖ Become familiar with the current legal and regulatory landscape including the New York State Department of Financial Services Cybersecurity Regulations.
- ❖ Understand cybersecurity best practices, both before and after a data breach.

Who should attend

This session would benefit all attorney who work for or represent clients that maintain personal identifying information.

Approximate Time: 50 minutes

Daniel Marvin, Partner – Dan focuses his practice on data privacy, data security and cyber-insurance matters, and counsels clients in all aspects of data breach prevention, detection and mitigation, including compliance with state and federal data privacy and breach notification laws.
